201 or more	.45 cents each
Index Print per 24 images	\$2.99
Additional cd copies	\$5.99
Specific Order Scans	\$0.50

Service Details and Limitations

- Service is for loose photos only; photos must be removed from albums, frames, etc.
- Photos must be at least as large as a wallet print (2.5x3.5) and no larger than 8"ax12".
- Any staples, paperclips, post-its or traces of anything sticky must be removed.
- Photos should be in good physical condition. We discourage using photos with existing cracks or other damage as the scanning process may cause further damage to these areas.
- Photos must be able to bend with little to no effort, a Polaroid print is the thickest we can accept for the scanner we use with this process.

- Quality will be close to original and will be suitable for printing up to 1 size larger than original. Photos will be saved on a CD in JPG format with minimal compression.
- CD's are single session – additional images cannot be added later.

Scanning Services High Quality

From Previously Processed Film, Photos or Artwork.

- Higher quality than FILM to CD Service
- File format options
- Choice of resolution
- Cropping
- Dust Spotting and file size
